DERMATOLOGY IN A NUTSHELL

IMPROVING SKILLS IN DERMATOLOGY THROUGH EDUCATION & TRAINING

According to the RCGP skin conditions are the most common reason for patients to present in primary care, and around one in four patients visit their GP with skin problems each year! However unfair you feel this might be, you need to be able to think coherently about not only potentially making a diagnosis, but some sensible treatment strategies after that.

This NEW course is aimed at GPs and qualified Allied Healthcare Professionals, working in primary care, who recognises the need to know some dermatology but frankly just aren't particularly keen on it!

AGENDA

9.00 Registration & Exhibition

9.20 Welcome and Introduction

9.30 Basics – the simple stuff: descriptions, moisturisers, topical steroids – what, why, when, how

Eczema – various presentations, treatments and complications

How to approach itchy things (and manage urticaria)

11.00 Coffee Break & Exhibition

11.30 Psoriasis – presentations and treatments at different sites

Acne – diagnosis and primary care management, when to refer

Other causes of red face – rosacea, perioral dermatitis, seborrhoeic dermatitis

12.45 Lunchtime & Exhibition, you've earned it

13.45 Dermatology below the waist – the normal, the itchy, the burning, the painful – how to workout what's what and what to do with it

Childhood rashes – common and important presentations

Infections and infestations –All bacteria, viruses, fungi, parasites seen and treated in primary care

Rolling Coffee Break

Lesions – basic benign, and spotting the suspicious

Practical tips – taking samples, doing tests, general tips

16.00 Close
