A SELECTION OF THIS WEEK'S PRACTICE COMMENTS

Acute presentations from sick children seem to have risen this week. Some staff sickness this week too.

A very busy day for the duty doctor, 25 extra contacts. We also had 2 HSW go off sick, had 2 clinics to cancel. We managed the day but it was stressful at times.

Yesterday was far busier than most Mondays we have reported, we also saw a spike at the end of last week. We have had just about enough capacity, but have had to work extra appts more often than we would normally.

GPAS CHANGE SINCE LAST SITREP

	Last Week	This Week	Trend	Note
Blackpool			↓	OPEL 3 to OPEL 2
Fylde & Wyre			→	
Morecambe Bay			→	
West Lancs			→	
Greater Preston			↑	OPEL 2 to OPEL 3
Chorley & S. Ribble			↓	OPEL 3 to OPEL 2
East Lancs			↑	OPEL 2 to OPEL 3
Blackburn W/Darwen			↑	OPEL 2 to OPEL 3
North Cumbria			↓	OPEL 3 to OPEL 2

A QUICK GUIDE TO THE GPAS STATES

- BLACK** Practice will fail within one month. Urgent system intervention required.
- RED** Sustainable in the short term. Needs system support.
- AMBER** Sustainable in the medium term (6 months max). Probably needs system support.
- GREEN** Fully Sustainable.

LMC NOTE:

Over half of practices have submitted data this week – thank you to those for providing us with this vital data. This week we have seen a clear upsurge in the number of Monday contacts as winter pressures increase demand in practice. We will continue to monitor this upwards trend and feedback into the wider system.

(1) This figure is accurate and is the sum of the list sizes submitting from those Practices registering as amber, Red and Black
 (2) This figure is approximate and calculated by using the clinical activity figure for Lancashire & Cumbria multiplied by 5
