Mental health problems in Huntington's disease: What every GP needs to know

**Thursday 22 January 2026, 1 - 2:00pm,
via Zoom**

The Huntington's Disease Association is delighted to welcome Professor Hugh Rickards for this special webinar aimed at GPs.

Mental health problems are common in Huntington's disease and can cause distress to the person with Huntington's and to those around them. In this special webinar for GPs, Professor Hugh Rickards will be talking about what mental health problems people with Huntington's might experience, and what their GP can do to help.

Hugh is MD FRCPsych Consultant in Neuropsychiatry and Hon. Professor of Neuropsychiatry, University of Birmingham.

A certificate of attendance will be available.

To book please head to our website
