A QUICK GUIDE TO THE GPAS STATES

- 
BLACK
 Practice will fail within one month. Urgent system intervention required.
- 
RED
 Sustainable in the short term. Needs system support.
- 
AMBER
 Sustainable in the medium term (6 months max). Probably needs system support.
- 
GREEN
 Fully Sustainable.

LMC NOTE:

We were disappointed with the number of GPAS responses received this week. This data provides invaluable insight at a system level and plays a crucial role in understanding and addressing the pressures within general practice.

We strongly encourage all practices to continue to complete the GPAS survey to ensure the data reflects the true picture on the ground.

(1) This figure is accurate and is the sum of the list sizes submitting from those Practices registering as amber, Red and Black
 (2) This figure is approximate and calculated by using the clinical activity figure for Lancashire & Cumbria multiplied by 5
